

### Description

A mapping error in the IIS software results in the IIS being unable to recognize either administration site sent in RXR-2 even though it is valid. The acknowledgement message returned contains warnings for the invalid values.

### Comments

No Comments

### PreCondition

A VXU message is generated by the EHR.

### PostCondition

No PostCondition

### Test Objectives

No Test Objectives

### Evaluation Criteria

The errors returned in the acknowledgement message are visible in the system responsible for the content of the administration message.

### Notes to Testers
