

### Description

A patient is seen at a clinic. A new administration is recorded. The IIS is able to process the administration message but finds multiple soft errors (warnings) which it returns in the acknowledgement message.

### Comments

No Comments

### PreCondition

No PreCondition

### PostCondition

The returned error must be visible in the EHR.

### Test Objectives

This test case assesses the ability of the EHR to accept an acknowledgement message with multiple soft errors being returned by the IIS.

### Evaluation Criteria

No evaluation criteria

### Notes to Testers
