

**Description**

A mapping error in the IIS software results in the IIS being unable to recognize either administration site sent in RXR-2 even though it is valid. The acknowledgement message returned contains warnings for the invalid values.

**Comments**

No Comments

**Pre Condition**

A VXU message is generated by the EHR.

**Post Condition**

No PostCondition

**Test Objectives**

Handling of an ACK message returned by the IIS with multiple warnings.

**Evaluation Criteria**

The warnings returned in the acknowledgement message are visible in the system responsible for the content of the administration message.

**Notes for Testers**
