### Pre Condition

A VXU message is generated by the EHR.

### Post Condition

The ACK Z23 is received by the EHR.

### Test Objectives

**Transmit Standard Patient Immunization History Report:** The EHR or other clinical software system directly or indirectly through an intermediary creates and transmits a report of a patient's immunization history to public health immunization registries.

### Evaluation Criteria

The acknowledgement message is consumed by the system responsible for the content of the administration message without error.
