<u>'</u>
-PostCondition
-PostCondition
A vaccine forecast based upon the complete vaccine history in the EMR is available to the user.
Test Objectives
Test Objectives
View Reconciled Immunization Forecast: The EHR or other clinical software system has the ability to re-evaluate and update the immunization forecast using a patient's newly updated immunization history, where the updated forecast results from the reconciliation of
immunization data contained in the public health immunization registry with immunization data contained in the EHR. Processing the new
immunization data contained in the public health immunization registry with immunization data contained in the EHR. Processing the new forecast can be internal to the EHR or it can use an external forecasting service.
forecast can be internal to the EHR or it can use an external forecasting service.
forecast can be internal to the EHR or it can use an external forecasting service. Evaluation Criteria
Evaluation Criteria 1. Tester verifies that the vendor can display the immunization forecast based upon the reconciled vaccination history:
Evaluation Criteria 1. Tester verifies that the vendor can display the immunization forecast based upon the reconciled vaccination history: 2. Verify that the EMR includes in the vaccine forecast:
Evaluation Criteria 1. Tester verifies that the vendor can display the immunization forecast based upon the reconciled vaccination history: 2. Verify that the EMR includes in the vaccine forecast: Hep B Peds NOS due on 5/21/2012
Evaluation Criteria 1. Tester verifies that the vendor can display the immunization forecast based upon the reconciled vaccination history: 2. Verify that the EMR includes in the vaccine forecast: Hep B Peds NOS due on 5/21/2012 DTaP due on 11/22/2015 IPV due on 11/22/2015
Evaluation Criteria 1. Tester verifies that the vendor can display the immunization forecast based upon the reconciled vaccination history: 2. Verify that the EMR includes in the vaccine forecast: Hep B Peds NOS due on 5/21/2012 DTaP due on 11/22/2015 IPV due on 11/22/2015 MMR due on 11/22/2015
Evaluation Criteria 1. Tester verifies that the vendor can display the immunization forecast based upon the reconciled vaccination history: 2. Verify that the EMR includes in the vaccine forecast: Hep B Peds NOS due on 5/21/2012 DTaP due on 11/22/2015 IPV due on 11/22/2015
Evaluation Criteria 1. Tester verifies that the vendor can display the immunization forecast based upon the reconciled vaccination history: 2. Verify that the EMR includes in the vaccine forecast: Hep B Peds NOS due on 5/21/2012 DTaP due on 11/22/2015 IPV due on 11/22/2015 MMR due on 11/22/2015 Varicella due on 11/22/2015 Varicella due on 11/22/2015
Evaluation Criteria 1. Tester verifies that the vendor can display the immunization forecast based upon the reconciled vaccination history: 2. Verify that the EMR includes in the vaccine forecast: Hep B Peds NOS due on 5/21/2012 DTaP due on 11/22/2015 IPV due on 11/22/2015 MMR due on 11/22/2015 Varicella due on 11/22/2015 influenza, unspecified formulation due on Oct 22, 2015 or later
