# **PreCondition**

**Description** 

All Demographic and Immunizations have been entered from the Initial Data Load.

### **PostCondition**

The complete Evaluated History for Juana Maria Gonzales Morales is displayed to the user.

## **Test Objectives**

**Review Patient Immunization History:** To assist with the ordering process, the EHR or other clinical software system allows a user to specify standard views of patient immunization information for each vaccine dose administration, including patient-specific data (e.g., age on dates of administration, etc.).

## **Evaluation Criteria**

- 1. The user views vaccinations as follows:
- b. Vaccinations displayed:

hepatitis B vaccine, pediatric or pediatric/adolescent dosage (CVX 08) administered 3/30/2015

## **Notes to Testers**

No Note
